### **Alliance Construction Secures Two Contracts at CRMC**

Alliance Construction Solutions of Wyoming has been awarded two projects at Cheyenne Regional Medical Center, according to Alliance Wyoming partner and project manager Scott Brelsford.

Beginning in March, renovation of the CRMC pharmacy will increase the sterile compounding area and enhance IV and chemo preparation and storage, Brelsford said.

Also scheduled for a March start, Alliance will construct new lab rooms, restrooms, admissions and waiting rooms for the blood draw facility at CRMC.

Both projects are in partnership with H + L Architects.

Alliance Construction Solutions of Wyoming is a full-service general contractor with offices in Cheyenne.
