Alliance Construction Completes Laramie County Morgue

Alliance Construction Solutions of Wyoming has successfully completed construction of the Laramie County Morgue and Coroner's Office.

Located on the first floor at Cheyenne Regional Medical Center East Campus, the morgue is nearly 3,000 square feet.

Alliance completed the project in less than four months under the supervision of Project Manager Scott Brelsford and Superintendent Gary Hallenbeck. Architects for the morgue renovation were Pappas & Pappas.

"It was a pleasure working with the Laramie County Coroner's Office and Cheyenne Regional Medical Center to bring the citizens of Laramie County this upgraded facility", said Brelsford.

Alliance Construction of Wyoming is a full-service general contractor with offices in Cheyenne.
